What's New in the?

Improved drawing experience. All AutoCAD Drawing features have been reworked. See the new user interface. Import based on colors: Import colors into existing drawings or from any color book. Now, it is possible to import any color book directly into a drawing, with support for 16 million colors. Invisible Legends on Horizon Lines: Save time in linear layout by hiding horizon lines. Simply click the new button in the ribbon to instantly hide/unhide the horizon lines. Improved grid alignment: You can now quickly align the grid to the center of a snap. You can also easily align a grid to a specific corner or rotation. Pen and Rulers: There is now a new function to allow you to create rulers, dividers, and guides by using the Pen tool. You can also use a ruler on a transparent layer. Subset and Project: Use Subset to make a subset of an object. Project will give you the original object. Support for both English and metric units in labels. (previously only English units were supported.) Bonsai Trees: You can now quickly create a Bonsai tree by combining the Tree tool and the Bonsai tool. PowerShell: You can now connect directly from Excel to the command line, using the new command Excel. Creation of 3D-ready 2D drawings: It is now possible to create 2D drawings that are automatically transformed into 3D designs, without using a specialized 3D drawing tool. In the new 2D→3D option in the Layer Options, select "2D to 3D" in the "3D Features" section. Support for new 3D drawing formats: The new BOMPS 3D drawing format was developed by FARO Technologies. BOMPS 3D is the first-ever 3D format with a fully-integrated, 2D vector-based description. In addition, BOMPS 3D is the only known 3D format that is compatible with both FreeCAD and Autodesk Fusion 360. Automatic Face detection in CNC: The CAM module can automatically detect the faces of files that have been edited in Corel Draw. After the faces are detected, you can easily insert the faces to a CAM setting without entering the original coordinates of the faces. Compass
