Great Email Extractor Crack+ With Registration Code

Overview of Great Email Extractor Great Email Extractor is a professional application designed to extract email address from websites or local files. Great Email Extractor is business strength, fast and reliable way to build targeted email lists using the web itself. Specify key words of the search and the this email extractor brings you hundreds of addresses from web sites found by the selected search engine. This concept is called Targeted Email because harvested emails associated with the keywords of your search and it is targeted to a particular and much more productive audience than just sending mass mailings to people who have no interest in your topic. Our web mail extractor supports all major search engines. Great Email Extractor is a simple, yet powerful application designed to extract email addresses from websites. You can retrieve websites or files of any type, including directories, domains, FTP sites or lists of subdirectories or files. Just choose the search domain, specify the web page you want to extract the email addresses from and click Go. The application will return a list of all email addresses contained within the retrieved file in separate email format. The email addresses can be saved to any format, including comma separated or plain text files. You also have the option to set the file type or file extension as search key word for this process. This software is very easy to use and is free of charge to those who have no commercial need for it. You can also create specific file names in the directories you want to search. Just keep the original search file type or file extension. Use keywords or phrases to extract and store the data. The application is very easy to use. Check email addresses for free – all the domains of search engine are available. How to use Great Email Extractor Use Great Email Extractor and find a list of email addresses. Click on the Start button. Specify the search engine and the web page to find the email addresses. Select the file type or file extension as your search key word. Click Go. The application will find the email addresses in the specified file and store them in a file of your choice. To keep your private data, the application shows a privacy guard window. All email addresses can be saved in files using any format as a text file or CSV format. Save or Export Data – The application saves all the email addresses you have found to text or CSV file or email address list. You can download the file in any format and you

What's New in the Great Email Extractor?

***** Features - Works with all Search Engines ***** You can select one or multiple *search engines* from which *websites* will be collected (automatically, or you can select manually the websites that contain email addresses). We provide a wide selection of different search engines to choose from. The program does not require installation of another program and does not require a web server to operate. *Web Directory* You can collect all email addresses from websites present on the web. *Codes are easily learned* and there is no need to use code editing. *Whois* If the targeted website offers Whois information, the name and address of the registrant will be displayed. *Privacy Policy* Your privacy policy is never abused! Every field filled by the extracted data will be displayed with all the information needed. The goal is to provide all the information requested. If not, no email address will be displayed, and you can choose to continue later without fear of breach of privacy. *No data will be collected without your consent* This unique feature does not require the use of JavaScript. All contact and personal information and email addresses will be extracted for each website (W3C standards, HTML5). Great Email Extractor allows you to upload the list of email address that you want to extract in the program. Great Email Extractor will also be able to extract most common types of email address that includes but not limited to *Hotmail, Yahoo, Google, Gmail, AOL, etc.* You can download a *trial* version of Great Email Extractor, and you will be able to see whether it is suitable for your needs or not. To do so, fill the *Contact us* form, with the information requested and a link to you most important results. This will be the link with which we will check your *experience* with Great Email Extractor. Do not hesitate to give us a feedback to answer your questions. _ _ ***** PRIVACY POLICY ***** I am going to respect your privacy and I understand that by checking the box "I agree with the terms of this privacy policy and would like to download this software" I will have the rights to open, modify or close if necessary this document, and that will be the only time that I use this function. I accept that the software does not store any personal information but it will save a link, for the purposes of the installation, to the file most
