TomTom MyDrive Connect

- Connect your TomTom device to your computer via USB. - Check that your device is up-to-date and discover important information such as your latest software version and maps. - Download and install updates as necessary. - Manage your MyDrive service for the data transfer and other details. TomTom MyDrive Connect Pros: - Check your device and automatically download and install the latest software updates. - Direct access to the latest user manual, which can be useful if you ever require assistance. - Manage your MyDrive service, as well as the data transfer schedule. - Keep your device updated with the latest maps - Learn about the latest TomTom products and features. - Automatically search for new software updates using email and update notifications. - See important information and important dates from your account, such as the last time you used the computer, the last software update and additional details. TomTom MyDrive Connect Cons: - The application may not be suitable for all users. - Not suitable for tablets and smartphones. - Unofficial user manual available in the first week of download. - Requires Windows 7 or higher. - Due to the large number of frequent updates to the software, users may not receive them immediately. Antivirus: On this page, we have listed some of the top antivirus programs available to protect your PC from harmful programs, and some of the best antivirus programs for Mac. iCareFree Antivirus Review iCareFree may have an old reputation in the world of av, but the team has been up to date and constantly improving. The antivirus software aims to be above all else reliable and efficient. It is classified as a specialist antivirus software for the PC and a Mac antivirus app. The free version offers the same features as the Pro version, plus a few extra tools. However, the Pro version is still well worth the cost for most people. Antivirus: iCareFree Antivirus iCareFree allows you to scan all your files and folders for viruses and other malware. In addition to this, the software automatically runs on a schedule, updating your file backups for you when the software detects changes to your files and folders. It is one of the best safety programs on the market. Antivirus: iCareFree Pro iCareFree Pro is the professional version of the software, allowing for

What's New in the TomTom MyDrive Connect?

Vendeur: tomtodirect(2.7k) Type: Navigation/GPS Ordre: 111251 Date de publication: 10-14-2016 Boats, Cars, Motorcycles, Hiking, Hunting, Fly Fishing, Camping, The Next generation of navigation devices that will take your passion to the next level! The TomTom experience for your vehicle is more than just directions - it's your adventure - and our new navigation devices let you get the most out of it! Based on years of research, TomTom has developed a new generation of navigation devices with a user interface that allows you to easily manage the display and the operation of your navigation device. Pioneered by TomTom's high-quality 7" and 10" devices, the new 6" is the ideal navigation device for any style of vehicle and requires less battery power for an amazingly smooth and undistorted ride. At the same time, the new navigation device is much more sophisticated than the previous ones. With the 6" and a wide range of optional apps, the navigation experience for your vehicle is truly unique. TomTom recommends that you use the included app "MapMyDrive - Drive" that will take you through the navigation process from start to finish. Manage your route and alternate routes easily from the main menu. Subscribe our newsletter to receive updates on interesting content, promotions, and discounts for our products and services.
