Open the Notification Area On your Taskbar, right-click on the notification area and click on "Task Manager". Click on the "Notification Area" option in the "System" tab. Click

on the "Lock Screen" option. At the bottom of the pop-up, in the "Go to Field" box, type "@Restart" and click on the blue "OK" button. Lockscreen Notification: Right-click anywhere on the Notification area of your screen and click on the mouse icon "Notification Area" (or click on the microphone icon on the taskbar) Click on the "System" 1d6a3396d6

Ruler Bars [2022]

Description: Desktop Layout Utility is a small utility that allows you to keep your different work areas on your desktop arranged in a way that you can see everything at a glance. With the program, you can easily add new workspaces, create and delete them, as well as rearrange them by dragging and dropping them to a different position. Description: Blazingly fast, no ads, no nag screens. Just fast fun with the simple rules of a Rubik's cube! A cube with a Twist: The twist is what makes this cubie so special. Just drag your mouse and with the mouse wheel, you can twist the cube any which way you want. But watch out, when you reach the edges of the cube, you'll spin around and pop right out the other side! Description: Transponder Generator creates a database of radio stations based on the most popular frequencies in Europe, the USA and Canada. With the various channels in the database, Transponder Generator can display a customized list of all radio stations that are available in your region. Simply select the frequencies from the available channels and Transponder Generator will display a table with all stations with the same channel frequency. Clicking on a channel name will take you to the online website of the station. Description: Are you like many users who have tried dozens of new fonts, only to find the one that is just the right size for you? Then you'll enjoy FontPro Size Creator. It automatically creates a list of all the available sizes of a given font from its various styles, and enables you to select your preferred size. Description: FlexiDisk is a simple Windows program that allows you to create a list of files on your hard drive, and arrange them into different categories. With FlexiDisk, you'll be able to organize files by date, size or file type. Description: Raster Paint is a simple image editing program for Windows. It enables you to create and modify raster images (bitmaps) by using pixel-based tools such as selecting, moving and resizing. You can also create, save and print raster images. Description: Ruler Bars is a free tool that allows you to quickly measure and calculate the width and height of any element on a screen. With Ruler Bars, you can easily measure the width and height of any element on your screen, and also calculate the size of
