KEYMACRO is a powerful keystroke recorder that allows you to capture the keystrokes of all applications on your computer. YOU Can Export all the captured keystrokes to.txt or other popular formats, and then use these files to set up password in every application on your PC with the newly created password. Just install it, configure it, then run it and it will start recording all your keystrokes. In just a few minutes, you can access all passwords and credit card information using this program, and then restore them to their original settings with just a click of the mouse. Benefits of the program: \* Easy to use \* Fast to setup \* Simplified interface \* Very easy to learn \* Creates a new account record of all your keystrokes \* Easily export to a text file \* Import your text file into the application

- \* Text file can be configured for any type of computer.
- \* Text file can be configured to automatically run programs and/or fill out forms.
- \* Uses the Windows clipboard so that you can paste your text file into your application.
- \* Works with any text editor and word processor.

Using a password recovery application can be extremely helpful, especially if your password is lost or has been forgotten. This script will scan your computer for all Word, Excel and PowerPoint documents, and recover any lost or forgotten passwords. It will also keep an audit trail of the passwords used. The password is found in the newly created docx, xls, ppt, powerpoint and word files using custom made regexp code. It will not work for all files types, please refer to the readme file. Version 1.0.4 (2016-02-12) \* The password finding code has been rewritten to make it more effective. \* The name of the password is now stored in the file in the following format: **\*\*Pass:The PassWord\*\***. \* Added detection of encrypted files. Version 1.0.3 (2014-12-12) \* The password finder now works with Windows 7 and Windows 8 (32 and 64bit). \* The finder will now also work with ZIP archives. \* Added support for files stored in encrypted ZIP archives. \* The passwords are now stored in encrypted form inside the file itself. \* The amount of time to run the finder is now limited to 5 seconds (before 1d6a3396d6
