As their findings trickled in, the scientists had to scramble to account for new insights. In the distant past, not only was there far more water on Mars than we realized, but the planet also had a mountain range; it also had a polar ice cap. Was this a seasonal phenomenon? A cyclical phenomenon? How could an ice age have occurred? But the biggest constraint was where to look. The problem with figuring out when things happened is that, in some sense, everything happened everywhere. On Earth, we have e79caf774b
