It is targeted at architects, engineers and designers working in the construction industry. Many software developers and publishers have launched their own versions of AutoCAD for educational purposes and to create the largest possible user base for their own software. Features AutoCAD has a lot of tools to create, edit, and analyze 2D geometry such as lines, arcs, splines, circles, ellipses, free-form shapes, and polygons. Various 2D and 3D geometry objects such as solids, surfaces, 3D solids, 3D surfaces, and 3D solids and surfaces can be created and edited with polylines, arcs, splines, circles, ellipses, free-form shapes, and straight edges. In addition, different objects may have more than one attribute, such as a text string or a color value. Objects may have a different attribute value for each vertex, edge, or face. History Autodesk acquired the rights to AutoCAD (in various iterations and names) in 1997. From 1997 to 2003, AutoCAD version 2.0 was produced by AutoCAD Incorporated and AutoCAD Specialist, Inc. It was licensed to OEMs (Original Equipment Manufacturers) in North America and to Autodesk Advanced Technology Lab in Europe. From 2003 to 2004, Autodesk acquired the rights to AutoCAD from both AutoCAD Incorporated and AutoCAD Specialist, Inc., along with the trademarks AutoCAD and AutoCAD LT. In 2004, AutoCAD LT was renamed Autodesk AutoCAD (which is the current name of Autodesk's AutoCAD product.) In 2004, AutoCAD XL was introduced. In 2006, the name of the application was changed from AutoCAD to AutoCAD LT. AutoCAD was renamed AutoCAD 2010 at the 2010 Nuremberg Autodesk World Expo. In May 2011 Autodesk announced that it would be further expanding its technology offerings by acquiring SubSurface Technologies. The same year the company announced the release of AutoCAD 2011. In 2012, they launched AutoCAD 2012 and AutoCAD LT 2012. On November 8, 2014, Autodesk announced that they would be acquiring the assets of Corel from Corel Corporation, a company that was founded in 1994. In October 2015, Autodesk announced that they had completed their purchase of Corel, and now owned the AutoCAD trademark.
