Steam Api_init failed: 3 Attach an xbox controller the game will run. Devil May Cry 5 Steam Must Be Running Developer Notes I've been having a serious problem with DMC5. -Steam logs a message that my steam_api.dll is invalid. I tried most of the. I have a 6950, win 10 64 bit. steam config.txt game in steam-api.dll. Infernal horrors appeared. Devil May Cry 5 Steam Must Be Running Steam may be running in the background. Set this as "Off" in Steam's settings." Q: SSH Tunnel going through VPN / Proxy Server I have two machines: Computer 1 - running Windows - I have a VPN set up Computer 2 - running Linux I want to access Computer 2 via SSH Computer 2's network settings: When I log into Computer 1's network settings and set the VPN to On - it works perfectly When I set the VPN to Off - it does not connect Computer 1's SSH Gateway is set to the IP of Computer 2 Computer 2's network settings: Gateway: 192.168.1.1 IP: 192.168.1.6 ASIG and VPN: 192.168.1.0 I have worked with this VPN server before and it seems to be working. Does anyone have any idea what I can do to make this work? A: It seems that the problem has been solved. I had manually configured the gateway of Computer 2. I set it to the IP 192.168.1.6 and then set the server to 192.168.1.1. This IP is the same on the VPN server and Computer 1, and therefore the SSH connection is no longer going through the VPN and instead goes directly to Computer 2. Q: How to change a default \$scope variable name with Angularjs? First time using Angularjs. Is there any way I can

change the `$scope.currentUser` variable name to `$scope.profile` instead? Below is the snippet of my code.
`$scope.currentUser = $rootScope.CurrentUser;` the problem is that I don't want that code to be displayed in my view... A: In your controller you can change the name of the controller var. `$scope.profile = $rootScope.`
