#### **About us**

Elden Ring is a new type of fantasy game that borrows elements from action and RPG genres. With this game, we intend to create something similar to EQ(Everquest), ESO(Age of Wold), AoD(Arima Online Development). We expect players to enjoy the game by creating their own stories and progress together as a community. We are designing the game to connect the players. Any EQ fans, those who have played AoD or AoL (Age of Lords) will not feel right in the game, either. Although there are some elements around that make it possible to identify the game as the same genre as those franchises, Elden Ring is a completely original story that draws on elements from fantasy cultures found across Japan, Europe and other parts of Asia.
