By using the menu, you can select the fast - break option. To set the fast - break option, select the Play option in the menu and select Fast Break from the Play menu. You can set three options (options - Time, CPU - Save, and Sound - Off). Fast Break is a game based

on basketball that has several options for the players. In this game, the first player to score in each of the three pairs is the winner. Fast - break is very good for people who like to score a lot of points in a short amount of time. Fast - break is very different from our usual basketball game. The quick plays are fewer in this game. So, it is not easy to win the game. But it is very enjoyable and exciting to play. Fast Break By using the menu, you can select the fast - break option. To set the fast - break option, select the Play option in the menu and select Fast Break from the Play menu. You can set three options (options - Time, CPU - Save, and Sound - Off). The Arabidopsis ARGOS gene family. The ARGOS (Arabidopsis Gene Regulatory Observation System) gene regulatory network is a model system where transcriptional and post-transcriptional mechanisms and pathways act coordinately to regulate gene expression. We report here on the identification and characterization of a new family of ARGOS genes in Arabidopsis. The ARGOS family includes nine putative members in Arabidopsis, designated ARGOS1 to ARGOS9. They are located on five of the nine Arabidopsis chromosomes (A1 to A5, A8, A9, C1, and C4). As the ARGOS genes are weakly expressed and are located in noncoding intergenic DNA, their physical localization raises the possibility of their involvement in gene expression.

Q: Copy number from one chromosome to the other For example we have 4 copies of chromosome 1 (A, B, C, D)
