Five years after a raid on the federal building in Gresham in which a Somali immigrant was shot and killed by U.S. Marshals, the Gresham Police Department is still under investigation. The Oregonian/OregonLive has learned from sources that FBI and IRS agents are looking at possible criminal charges against Gresham's police chief in connection to the fatal shooting. Investigators are also exploring the possibility that the chief obstructed the investigation. As the chief of police, Bruce Harrell is ultimately

---

responsible for the actions of his officers. He's therefore a target for investigators. Gresham police were on the scene as a group of eight armed federal agents and deputies from the U.S. Marshals Service executed a search warrant at a southwest Gresham home at approximately 7:30 a.m. May 15, 2011, to serve a warrant for a stolen vehicle believed to be in the home. The group of armed officers had gotten into a physical confrontation with a Somalian-looking man, identified in news accounts as Mohamed Abdi Noor, and other members of his family. On the video taken by a courthouse news broadcast, Noor, 40, can be heard to say that he's an off-duty,

---

legal gun owner. A source identified Noor as the owner of a medical marijuana business. Noor's partner in the business, a man identified by the Oregonian/OregonLive as Ayo Aden Hassan, had stopped by to pick up his car

**Wed, 10 Apr 2016 11:58:32 +0000 Market Sales Up for Game of Thrones By: Liayn Quinn**

**If you were looking forward to exploring Westeros this year, your chance is going to be short-lived, because it's already looking like a season with some of the most anticipated episodes like "The Winds of Winter," "Battle of the Bastards," and "The Door." Not only would that mean more expensive deliveries for those of you who live in Europe, but it could also put some supply chain issues in jeopardy for that other spectacularly anticipated episode called Game of Thrones "The Spoils of War."**

**Meanwhile, the Russian distribution numbers have just come in for The Game of Thrones, and they're up just over 30 percent year-over-year, with the prologue of the seventh season "The Broken Man" being the best-selling episode thus far.**
