The Best of DJ Shadow; Volume 1 The Best of DJ Shadow; Volume 1 is a DJ Shadow compilation album released by Definitive Jux in 2004. Critical reception Ben Coon of The A.V. Club said, "The Best of DJ Shadow; Volume 1 is a reminder of why DJ Shadow is so great. It has every successful entry in his catalogue, from Main Source to M.C. Grind to Our Vinyl Weighs a Ton." Joshua Klein of CMJ New Music Report said, "A 38-minute compilation, it combines Dr. Octagon's 'Enter the Chitlin' Bell,' the Godfather's 'Smooth D, No Bounce,' the Ready Set's 'The Game,' and an otherwise-unknown classic from Main Source that sticks in the brain like an antiseptic in a burn victim's eye socket." Track listing References External links Category:2004 compilation albums Category:DJ Shadow albums

The Health Ministry has directed all government and private hospitals to ensure prescription of a dose of antibiotics even if a patient does not suffer from any disease, especially if the patient is from economically backward families. This was conveyed in a directive issued recently by the Central Drugs Standard Control Organisation (CDSCO) regarding the guidelines for rational use of medicines and antibiotics. This directive is being issued as the misuse of drugs and antibiotics is one of the major threats to public health. The directive, issued by the CDSCO on June 25, states that antibiotic prescription needs to be done even if the patient does not suffer from any disease. According to the guidelines, if a patient is cured of a disease with a few days of medication and there is no side effect, the medicine should be dispensed. The guidelines also specify that antibiotic prescription is required for skin diseases, eye problems, throat infections, gonorrhoea, pneumonia and other diseases which need long-term medication. Also, all the patients

Training.Q: Generate the equation for an horizontal line after clicking on a button of a GUI I want to generate an equation of a horizontal line to follow when I click on a button on a GUI. Is there a way to do this without a big code of loops? A: You need to implement callback methods that run when you click the button. It is hard to implement in this way but the basic algorithm is class handler:

```
def __init__(self): # initialize stuff
def onclick(self): # control starts here # calculate and set a new x-coordinate for the line
def process(self): # update the line
class line: # move e79caf774b
```

RECEIVE MY NEW RANT, WEB COMMENTARY & NEWS Contact me
FIND US ON FACEBOOK DISCLAIMER MY RANT is an independent publication. Rest assured I have no influence on any media companies, societies, governments or politicians, no matter what happens, no matter how ridiculous or shocking (or horrific), I will remain an independent. I write because I am a human being who finds himself and the world- around him utterly bewildering, and I'd like to share my confusion with others (and accept all comments and contributions). The views expressed and the errors I make could not be more sincere. They are not – and will not be – politically or ideologically motivated. I make no secret of my own biases or prejudices; these are my own to own and share and should be admitted when making any kind of critique, especially to media and

politicians, lest we become all sheep, all thinking alike, all responding to the same thing, all the same. I write because of the enormous frustration and despondency I feel when I see what the world is going through and how many people are caught in a vicious spiral of corruption and dishonesty, the likes of which are unseen in human history, and feel that nobody has any answers or solutions, or any inclination to work towards an overall, all-encompassing resolution to the deep social and economic problems plaguing mankind today. I will contribute to the good of the world when I can, but I also have my own world to take care of, and my own circle of family, friends and community. As we all know, that circle includes YOU, dear reader. DO NOTE THAT WE MAY NOT ALWAYS GET THE ONES WE TYPE . Howdy, welcome to my RANT. If you are new to my work, kindly, read the news section where you will find all my latest RANTS on the subjects most relevant to the world, and especially its politician, media, and movie industries. In the RIGHT-HAND BAR below, click on the link named “NEWS” to access the latest from the world of politics, science, culture, the media and technology, and the world at large. In the LEFT-HAND BAR, click on the link named “MEDIA” to access a list of all my latest RANTs, organized by subject. Also, in the sections labeled “COMMENTS” and “SUGGEST
