He lost the tracking device, but the device in the stomach confirms its identity. Photo: Ruprecht Fuchs The German-Namibian research institute (ANRI) is sending back the remains of lion part of its project to find the life history of lions in southern Africa. The lion's skull was shot in Namibia by Luke Meieron, who works in the field of wildlife management, on 10 October. The tracking devices he had placed on the animals were removed and the lion was shot. Luke Meieron: We will open the lion's skull at a press conference at the Erlangen science museum when we have it back. Ruprecht
