Adobe Bridge Adobe Bridge is a thumbnail browser and a collection manager for JPEG, TIFF, and PDF files. You can change the look of your thumbnails using a tool similar to the one available in Photoshop. You can also organize the files into collections, which gives you greater control over the order in which they appear in Bridge's Organizer tab. The Organizer page has three tabs: \* \*\*Recent Files\*\*\*. The most recently imported files appear on this tab. To add a file, right-click its thumbnail and choose Add to Favorites. This gives you access to the regular Favorites view. You can open the file by double-clicking its thumbnail. To remove a file, select it from the Recent Files tab and choose Remove from Favorites. \* \*\*Favorites\*\*\*. This option groups files based on the ones you frequently use. You can right-click a thumbnail and choose Add to Favorites, or remove a file by selecting it and choosing Remove from Favorites. You can also sort the Favorites by name or file size. \* \*\*Organizer\*\*\*. This tab displays a folder hierarchy of your imported files. ## Fine-Tuning File Properties When you import an image, you change its appearance, extend its life, and compress its size. Most of that processing happens in the \_preflight\_ step of the import dialog. However, the import dialog allows you to modify several file-related properties, which can refine the imported image in your working file. Some of them are essential, while others are there mostly to maintain image consistency.

path and filed a declaration that the original deeds and the copies were true and correct. There can be no question that this Act applies to all proceedings under the Code in which the claims of creditors against the bankrupt must be established by the trustee, such as objection to a claim, even though the claimants' claims are secured. Since this suit was brought by an unsecured creditor it did not come within the section [Act 52 of 1930]. In re Meadows, 110 F.2d 895 (7th Cir. 1940), was a case where the creditor had filed his claim more than three years from the date of bankruptcy and the trustee brought an action to avoid the lien. The court held that the claim was barred by the Illinois time limitation on the institution of an action to foreclose a mortgage and that the action for that purpose was a suit in rem for the benefit of all creditors. It is argued that the case of Barber-White Co. v. Hayes, 27 F.2d 50 (6th Cir. 1928), supports the position of the defendant. But the case that was decided relied on the Kentucky statute which was clearly different from the Georgia law. \*624 That is sufficient. The purpose of the bankruptcy statute is to protect the bankrupt's estate, the creditors and the public against fraudulent and improvident bankruptcies. The claim of the defendant to the property should be and is sustained. The temporary restraining order is set aside and a permanent injunction will issue forbidding the defendant from committing any act prohibited by the Georgia statute.
